

## Navy Recognizes the Contributions of MFOM team

On September 28, US Fleet Forces Command recognized the contributions of our Maintenance Figure of Merit (MFOM) team. MFOM is a set of Web applications and software systems for U.S. Navy ship maintenance and readiness reporting that is used on most Navy combat ships. It has been produced by a joint Navy and industry team under the leadership of Rick Leeker and his team in our Washington, DC office.

Mr. Jerry Zumbro (c.) of Navy Fleet Forces presents Award of Appreciation to Steve Karlovic (l.) and Rick Leeker (r.)

**Award Reads:** *For exceptional superior support of US Fleet Forces Command, Deputy Chief of Staff, Fleet Maintenance (N43) Maintenance Figure of Merit (MFOM) initiative. The CDI-Government Services Team distinguished themselves with exceptional superior service as the prime integrator supporting the MFOM Family of Systems from 2005 to 2011. Applying their extensive knowledge and substantial ship maintenance experience, they aggressively pursued and resolved countless challenges leading to the accelerated development and successful deployment of the MFOM Family of System to the fleet. The CDI-Government Services Team's technical and program management expertise, coupled with their unmatched leadership, resourcefulness and dedication, have ensured the MFOM Family of Systems continues to improve the overall end to end fleet maintenance process. Actively responding to increasing programmatic challenges, the CDI-Government Services Team was instrumental in the successful fielding of an innovative fleet maintenance solution. The CDI-Government Services Team has been instrumental in ensuring that US Fleet Forces continues to provide forces ready for tasking across the full spectrum of military operations throughout the 21st century. The distinctive accomplishments of the CDI-Government Services Team reflect great credit upon CDI-Government Services, and were in keeping with the highest traditions of the United States Naval Service.*
